ACI CERTIFICATION

American Concrete Institute, Southern California Chapter, announces its schedule for certification of concrete Field Testing Technician Grade 1. This program has been developed for certifying individuals who will then be competent to conduct field tests on fresh concrete. The program covers details of ASTM procedures and consists of a written and performance examination. The performance examination requires the candidate to demonstrate his/her ability to correctly perform and record the results of field tests on fresh concrete.

Program Details
Each training examination course consists of 4 (four) sessions:
1 Weekday  5:30 – 9:30 p.m.  Classroom Lecture
2 Saturday  7 a.m. – 1 p.m.  Performance Training
3 Weekday  5:30 – 9:30 p.m.  Classroom Lecture
4 Saturday  7 a.m. – 1 p.m.  Final Examinations

To reserve a space, payment must accompany your completed application. A confirmation will be found at www.ACISoCal.org upon complete receipt of payment. You will be provided all materials including the workbook at the first class. Applicant is responsible for knowing his/her class dates, times and location. This test requires the physical ability to lift the required weights.
