

ACI SoCal Chapter Presents:

WHO'S WATCHING OUT FOR THE CYLINDERS?

Wed, September 20, 2023
5:00pm-6:30pm - Networking
6:30pm-8:00pm - Program

THE SPEAKER

Ken Sears, FACI
Manager of Sales and
Technical Innovation
Orca Aggregates,
a Vulcan Company

Ken Sears is the Manager of Sales & Technical Innovation for Orca Aggregates, a Vulcan Materials Company. Prior to his current position, Ken served in Technical and Management roles in ready-mixed concrete for 25 years, and supplementary cementitious materials for 8 years. Ken is proficient in specification writing and review, concrete design, materials testing, and education. His interests include high-performance concrete, supplementary cementitious materials, and optimizing concrete mixtures for low embodied carbon and sustainability. Ken received both his Bachelor of Science and Master of Arts degrees in Business Management from the University of Redlands in Southern California, and he is a Fellow of the American Concrete Institute.

ABOUT THE PROGRAM

Ken Sears, FACI, will discuss an overview of the correct procedures to collect, store, and test concrete cylinders that are required by project specifications. He will include code requirements, which entity is responsible for what aspects of the testing, different curing methods and the overall business of getting acceptable results for all parties involved in the project.
